Microsoft 365 & Systems Administrator | SharePoint, Identity & Automation

PROFILE

Security+ certified computer science graduate and IT analyst supporting Microsoft 365, identity, Windows endpoints, and hybrid email. Builds SharePoint Online intranet components and Power Platform workflows that improve employee access to information and make recurring reviews auditable.

PROFESSIONAL EXPERIENCE

Resource Management Concepts Inc. | Lexington Park, MD

Sep 2025 - Present

Corporate IT Analyst | Automation Systems

- Support Windows, Microsoft 365, Active Directory, Entra ID, applications, and networks; resolve access, authentication, permissions, Outlook, software, and connectivity issues.
- Developing a modern SharePoint Online intranet to replace a classic/on-prem site, building reusable SPFx web parts with React, TypeScript, and SCSS for employee resources, company information, and staff directories.
- Integrated published SharePoint News through REST APIs using SPHttpClient, displaying current announcements and banner images in custom homepage components; tested and refined functionality in SharePoint.
- Supported a hybrid Exchange Online transition and contribute to an Entra ID/Intune pilot for enrollment, configuration, and compliance policies.
- Maintain Windows 11 reference images and SmartDeploy deployments across Dell models; resolve boot, driver, update, and post-build issues.
- Automate inventory, software review, BitLocker remediation, VPN upgrades, Dell updates, and device lifecycle tasks across 100+ endpoints with PowerShell, Python, and PDQ Connect.
- Develop SharePoint Online, Microsoft Lists, Power Apps, and Power Automate workflows with scheduled processing, permissions, notifications, approvals, and audit history.

Resource Management Concepts Inc. | Lexington Park, MD

Jun 2025 - Aug 2025

Information Technology Intern | Automation

- Automated endpoint inventory, software auditing, device-name and user extraction, and recurring administrative tasks with PowerShell.
- Supported Windows deployment, server hardware, and a three-node Proxmox/Linux virtualization environment.

LTN Global Communications Inc. | Columbia, MD

May 2024 - Aug 2024

Software Engineering Intern | QA Automation

- Built Python test automation that reduced video-testing execution time by approximately 50% and standardized output for faster troubleshooting.
- Maintained GitLab CI/CD pipelines and investigated software, network-stream, encoder, decoder, and device-integration failures across 15+ systems.
- Created and executed 50+ TestRail cases, documented reproducible defects, and coordinated findings with engineering teams.

Sinclair Inc. | Hunt Valley, MD

Jun 2023 - Aug 2023

Business Systems Analyst Intern

- Led stakeholder meetings and translated business needs into technical requirements for a centralized employee-training platform.
- Delivered a working prototype and helped define 20+ ServiceNow enhancements for implementation.

SELECTED PROJECTS

CMMC Microsoft 365 Audit Platform | *Power Apps, Power Automate, Microsoft Lists, PDQ Connect, Python*

- Designed an audit platform that evaluated 100+ endpoints in under 30 minutes, replacing 20+ hours of manual software and service review.
- Built linked device, software, service, hardware, approval, business-need, and evidence records with searchable findings and reusable decisions.
- Adapted a Python audit workflow into a Microsoft 365 pilot using Power Apps and linked Lists for review, outreach, and compliance evidence.

Knowledge Base Review Automation | *SharePoint Online, Microsoft Lists, Power Automate, Power Apps*

- Built a production annual-review system that notifies owners 30, 14, and 7 days before due dates and repeats overdue reminders until completion.
- Created a Mark Reviewed workflow that advances the next review by one year and records the reviewer, timestamp, ownership, status, and audit evidence.
- Migrated the list, app, and automation into the Corporate IT SharePoint site, centralizing ownership, review status, due dates, and audit evidence.

TECHNICAL SKILLS & CERTIFICATION

Microsoft 365 & Identity: Microsoft 365, Exchange Online, SharePoint Online, Microsoft Lists, Power Apps, Power Automate, Entra ID, Active Directory, Intune pilot

Development & Automation: SPFx, React, TypeScript, JavaScript, SCSS, SharePoint REST APIs, SPHttpClient, PowerShell, Python, SQL, Git

Systems & Security: Windows 10/11, PDQ Connect, SmartDeploy, BitLocker, endpoint imaging, networking, Tenable Nessus, Duo MFA, CMMC support | CompTIA Security+ CE (August 2026)

EDUCATION

St. Mary's College of Maryland | St. Mary's City, MD

May 2026

B.S. Computer Science, Minor in Business | GPA: 3.6/4.0 | Dean's List (5x), Senior Scholar Athlete, Chi Alpha Sigma
